MR. LEWIS MCKENZIE AND THE EIGHTH ILLINOIS .- At the late reunion of the Sth Illinois regiment, in Chicago, the Times of that city says the following letter was read by Gen. Farnsworth from ex Mayor McKenzie, of Alexandria, Va. He was mayor of that burg when

the 8th was there in 1862: ALEXANDRIA, VA., Sept. 12th, 1877. - W. Wirt Roberts, esq., Chicago-Dear Sir: I have received an invitation to attend the annual reunion of the Sth Illinois cavalry, to be held at the Palmer House, Chicago, Sept. 18. I regret that it will be out of my power to attend, and I really would be very glad to be able to do so if was unexceptionable. They came here and into Virginia at the call of their country to uphold and preserve the union, and well did they discharge their duty, in my humble opinion. I will not revert to the many pleasant associations conneeted with the conduct of the regiment while here, and the high regard entertained for them; by the union loving people of Alexandria. Of course, they did not expect those opposed to sustaining the union to respect them.

The war is over. I trust we shall not lose the results of it, but time will determine this. Time, of course, has made many inroads on this regiment within the last 16 years. To the remainder that may be present at the reunion please present my kind wishes for their health and prosperity, and finally, as they depart, one by one, from this world, may they have an ever lasting dwelling place in heaven.

LEWIS MCKENZIE. Yours truly,

THE MOFFETT REGISTERS. -- The Moffett liquor registers for use in this city were received this morning by Major George Duffey. Commissioner of the Revenue. They were uc companied by Mr. II. C. Burrows, the agent of the manufacturer, who adjusts them and assists in putting them up. Sixty-five of the registers are for alcohole and fifty for malt liquors. As their construction has been very fully explained heretofore in the Gazette, any further description is unnecessary. Under his instructions from the Auditor, Major Duffey at once went to work fitting up and putting in position the registers. The first one was put up at noon in the bar of Cooney's Tonine House, and the next at the liveli restaurant, near by. Their erection will be continued during this evening and to morrow, until all the bar-rooms are supplied. Although all the liquor dealers are violently opposed to the Motfett law, still, recognizing the feet that the law is in operation, they receive the registers good humoredly, and many jokes thereon have been passed between the dealers and the officers.

The Eastern War.

A special, dated Erzeroum, Tursday, says :--Twenty two thousand Russians have arrived opposite Mukhtar Pasha's centre, and a battle 's imminent."

A correspondent lately before Pievna telegraphs from Bucharest on Wednesday night as follows :- "The Roumanians have been unsuc cessful in their attempt to capture the second Grivitz's redoubt, after having sapped close up to it. They displayed great gallantry, and sutfered severely.

"No confirmation has yet been received of the intelligence which still seems current that the Turks have crossed the Danube opposite Silistria. The project is, however, eminently feasible, and any day may see its fulfilment.'

The unsuccessful attack on the second Grivitza redoubt, reported in the foregoing dispatch, may be the foundation for a sensational dispatch from Constantinople cabled yesterday stating that the Russian centre attacked Plevna on Tuesday, and was repulsed with a loss of seven thousand men and four gute.

A Bucharest correspondent, telegraphing on Wednesday, makes no mention of the attack, but says the Roumanian trenches have been pushed to within fifty yards of the redoubts. An attack must therefore be imminent.

A correspondent at Shumla confirms the report of the retreat of Mehemet Ali to his formr positions on the Kara Lom. As the Turks permitted this news to pass at

They had succeeded in this for several years, and even now the fact that the war has not become a European one was partly due to their amicable relations. The three Em perors' alliance might again by of service in maintaining peace after the close of the present war. The fact that one of the parties to the alliance had entered upon the war contrary to the views of the two others, proved that there was no responsibility upon the others, particularly not on Austria. He denied that the Government wished the dismemberment of Turkey. In answer to a question relative to the Salzburg interview, M. Tisz: said that Austria's relations with Germany remained very good, as they had

been for a long time. The most notable point in Minister Tisza's speech is the independent position which he claimed for the Austro Hungarian Governmen relative to a settlement at the conclusion of the war. He twice referred to this subject. He said :- "Os our side it has been declared from In the Austrian Reichsrath yesterday Prince Adolph Auersperg, President of the Council tingency of Servia's participation in the war, he said the Government could not declare its poli
